

## ● Strawberry ANIA® CIVRH612\*

**Plant:** everbearer variety with high chill requirement. Medium vigour, upright habit. Rustic plant, quite tolerant to leaf and root diseases, slightly susceptible to mildew. Good productivity, also in the second year. The picking season is long lasting and constant.

**Fruits:** heart pointed to ovoid shape. Good size, constant throughout the picking season. Bright red color, excellent skin resistance. Excellent organoleptic characteristics, juicy and sweet with high brix levels. The fruits are long lasting on the plant and can be harvested when fully ripe. Excellent shelf life. Stalks removal very easy from the fruits, suited for fruit salad.

**Harvesting time:** early-season and long lasting.
