

## ● Strawberry **SIBILLA\***

**Plant:** mid-late and high chilling variety, suitable for European continental climates. Good vigour, heavy leaf canopy with flowers at the same level of the foliage or slightly below. Rustic plant, resistant to diseases and stresses. Very high productive potentiality.

**Fruits:** attractive and long conical shaped, of regular and good size, resistant to rain damages. Bright red colour, very nicely internally colored flesh with high firmness. Excellent, very sweet and pleasant taste.

**Harvesting time:** + 8 days Clery\*.
