

## ● Apple **GAIA** (PBR) **GEMINI**(PBR)

### **GAIA**(PBR)

**Tree:** scab resistant. Open and easy to manage habit, medium vigour. Highly productive with early fruiting. Moderately susceptible to powdery mildew.

**Fruit:** large size with a regular, round and slightly flattened shape. Yellowish-green ground colour with streaked red colour over 70-80% of the surface. The flesh is cream-coloured, fine, crisp and juicy. Very tasty, very sweet with an intense aroma.

Long keeping quality that retains its crispness and juiciness after harvest.

**Harvest time:** 25 days before Golden Delicious cl.B.

### **GEMINI**(PBR)

**Tree:** scab resistant. Medium vigour, open and easy to manage habit. Quick fruiting and highly productive.

**Fruit:** very attractive, large size with a regular conical shape. Green ground colour with a uniform bright ruby red blush over the entire surface

The flesh is creamy-coloured, crisp, fresh and juicy with a good flavour.

**Harvest time:** 20 days before Golden Delicious cl.B.
