

● Strawberry XANTE® CIVRL333*

Plant: everbearer variety with low chill requirement. Wide climatic adaptability, from northern european countries to mediterranean and subtropical areas. Good vigour, upright habit. Excellent tolerance to most common diseases.

Fruits: attractive with regular shape and big size for all the picking season. Very resistant skin, even at high temperatures, but juicy flesh.

Bright red color. Very sweet flavor, with lovely aroma, fruit unique of its kind among the everbearer low chill varieties.

Harvesting time: very early-season and long lasting.
