

## ● Apple **DEVIL GALA**<sup>(PBR)</sup>

**Tree:** high vigour, high and constant productivity.  
Early fruiting.

**Fruit:** medium to large in size, cone shaped with faded dark red colour over the entire surface of the fruit. Very early colour development.

Devil Gala<sup>(PBR)</sup> is the reddest of all the Gala clones available today.

The flesh is very consistent, sweet and aromatic, typical of Gala.

**Harvest time:** 25 days before Golden Delicious cl.B.
