

## ● Apple MODÌ® CIVG198<sup>(PBR)</sup>

**Tree:** medium vigour, scab resistant. Early ripening, easy to manage. Rustic foliage not very prone to insect attacks. Moderately susceptible to powdery mildew.

**Fruit:** medium to large in size with an elongated, truncated cone shape. The bright purple red colour covers almost the entire surface.

Very firm, crisp and juicy yellow-coloured flesh. High sugar content and balanced acidity.

**Harvest time:** 7 days before Golden Delicious cl.B.
