

● Apple **SAN-CIV[®]** FUCIV51^(PBR)

Tree: high vigour, with robust branches and quick fruiting, excellent productivity.

Subject to alternate bearing typical of Fuji.

Fruit: new Fuji clone, attractive, intensely faded red colour over the entire surface. Intense cherry-red colour, excellent resistance to burning under the sun.

Taste, peeliness, crispness and flesh colour typical of the old Fuji.

Harvest time: 25 days after Golden Delicious cl.B.
