

● Apple **SMERALDA**^(PBR)

Scab resistant variety

Tree: Open habit with short, very easy to manage branches. Early fruiting. High and constant productivity, not subject to alternate bearing.

Fruits: medium to large in size with a smooth, uniform green colour without evident lenticels. Fine yellow flesh with an excellent flavour, very crisp and juicy. It has a pleasant and fresh taste due to its high sugar content and high acidity. Excellent storage up to April/May.

Harvest time: 10 days before Golden Delicious cl.B.
