

● Pear **KAISER**

Tree: very high vigour. Poor grafting compatibility with many quinces (excluding CTS 212), so an intergraft is recommended.

High, constant productivity.

Bears fruit mainly on the spur.

Fruit: medium-large in size. Elongated, slender, pyriform shape.

Yellow skin with rust blushing.

Very fine, sweet, aromatic pulp.

Picking season: 31 days after Williams B.C.
